

AMERICAN
KENNEL CLUB™

Performance Events Department

February 2020

To: **All Clubs Licensed to Host Lure Coursing Events**

Subject: **Measuring of All Whippets**

This communication is to inform your club about an update made to the *Regulations for Lure Coursing Test and Trials* which is effective March 2, 2020. This update will require that all Whippets regardless if a Field Champion, must be measured at the time of roll call. The language which references that Field Champions shall only be measured on request, has been removed. This was requested by the American Whippet Club and approved by the AKC Board of Directors. The language with a strike through represents what will be removed from the next printing of the regulation book.

Chapter III – Section 7. Inspection and Measuring Committee.

5. The procedure for measuring Whippets is as follows:

Paragraphs (a) through (c) remain unchanged.

(d) All Whippets will be measured only once at the time of roll call at each and every Field Trial, ~~except that Whippets that have earned the Field Champion title shall only be measured on request at roll call.~~ Whippet Field Champions which are measured out will be barred from running but shall retain the title.

Regulation updates are always found on the [Regulation Resources](#) webpage. Please send any questions or comments to: lurecoursing@akc.org
