Text messages are not monitored. Please send all inquiries directly to scentworkmasternational@akc.org

This event will be using the app called myK9Q. This app will help exhibitors see in real time the flow of dogs running in each class. They can also see when they have completed a class, what dog is next and how many more dogs are left to go.

The app can ONLY be used while the event is IN PROGRESS scan the QR code when ready and use the code found on your armband or posted at Secy desk.

Watch a demo of the app anytime by going to the main website www.myk9q.com then scroll down to "[How to Use myK9Q as an Exhibitor](#)"

To see an explanation of how the running order of each day will work visit www.akc.org/scentworkmasternational
